PROJECTS

Ecommerce Clothing App

- Developed a user-friendly ecommerce clothing application designed to enhance the shopping experience for customers.
- The backend of the application was built using Spring Boot with Java, ensuring an efficient system architecture. A PostgreSQL database was utilized for secure and reliable data storage, managing product inventory, user accounts, and order processing.
- The frontend was developed using React, offering a dynamic and responsive user interface.

SKILLS

React Next.js Redux Spring HTML CSS TypeScript
JavaScript Java C++ Assembly PL/SQL PostgreSQL
Figma Illustrator UI/UX Design

EXPERIENCE

Software Engineer Intern / Flex-Space

Lasting Software - Timisoara, RO

15 July 2024 - 30 August 2024

Frontend Bootcamp

Betfair Romania Development - Cluj-Napoca, RO

October 2024 - December 2024

National High-School Decebal Deva

September 2017 - June 2021

ABOUT

I am passionate about advancing my career in the IT industry, with a strong focus on UI/UX and frontend development. My creativity and innovative mindset drive my love for web design, which I honed during my internship. I'm excited to leverage these skills to contribute to the ever-evolving landscape of digital solutions and create impactful user experiences.
